

SOFTWARE DEVELOPER WITH 4 YEARS EXPERIENCE

GABRIEL GONZÁLEZ MAÑANÁ

+ EXPERIENCE

2015 –
Present

DIRECCIÓN GENERAL DE CONTRATACIONES PÚBLICAS (DGCP) QUALITY ANALYST (INDEPENDENT CONTRACTOR)

I work with a team that aids the process of creating functional and secure web applications for fellow Dominicans. I've been writing test cases directly from MRD's and PRD's and doing some manual testing myself while keeping an eye for security vulnerabilities. Scripting load and stress tests with Ruby/

Selenium have also been among the things I've helped with.

2014 –
Present

BLUECODING.COM FULL-STACK WEB DEVELOPER

Part of an All-Star remote team that works for different North American client. Worked for clients in the United States building web applications in Ruby/Rails switching back and forth between architecture, back-end and front-end.

2008 –
Present

FREELANCE PROJECT MANAGER, DESIGNER & DEVELOPER

Development of international applications remotely and paid by the hour. Have had notable success designing, managing and testing software made from third parties.

2012 –
2014

PIXEL PERFECT TREE WEB DEVELOPER

Worked on several applications for Puerto Rican clients, built APIs, administrative interfaces and custom implementations. Wrote Ruby and Javascript above anything else, jumped back and forth from back-end to front-end requirements.

2011 –
2012

BERRY WHALE S.R.L SENIOR WEB DEVELOPER

Worked on a hefty amount of applications, exploring different areas, including web programming, design, markup, project management, architectural design, web design, user experience, content management and quality assurance.
